

# Condeco Analytics Advanced

Manage smarter with  
Condeco Analytics  
Advanced.

You already rely on **Condeco by Eptura** to give you total visibility over your hybrid workplace. Now, Condeco Analytics Advanced brings all the information about your workplace into at-a-glance dashboards so you can better plan your work environment and proactively manage the demands of your workforce in today's rapidly changing world of work.

Condeco Analytics Advanced enables real estate and workplace leaders to explore multiple dimensions of workplace data to understand engagement and space occupancy from a tactical and strategic perspective. These insights help you make better-informed decisions about how your workplace is being used, which can serve as a baseline for measuring other attributes of your company's performance, including employee satisfaction, performance, and productivity.

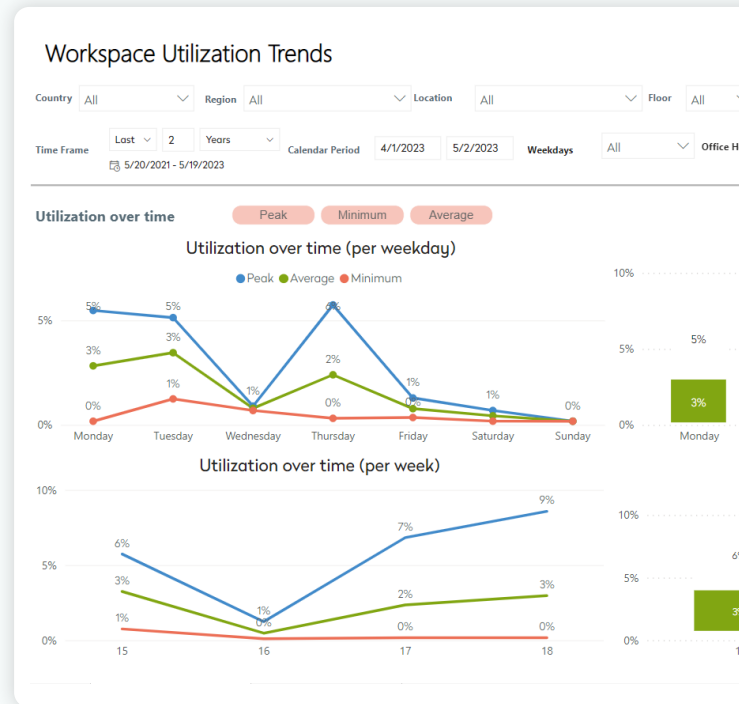

By utilizing the reports from the system, Condeco by Eptura allows us to **maximize** our desks across all locations as we are able to quickly **inventory** desks and meeting rooms.

# Understand how your workplace is performing

## Simplify how you manage your data

- With in-platform workplace intelligence, you can save yourself the trouble of exporting and manipulating data in third-party tools.
- Uncover multiple dimensions of data to understand strategic and more granular drivers of workspace utilization across all resources and locations.

## Customize how you view data

- Filter data by timeframe, office location, resource type, floors, and office hours to measure behaviors.
- Create custom bookmarks to save filtered views of specific workspace information and share key insights with relevant stakeholders.

We wanted to use our space in a more agile and modern format. It's really helpful to have more **sophisticated data**. We have **shaped** the physical **workspace** to look very different and to incentivize our employees to want to come to the building to be together.

## Make **data-informed** decisions and plan for the future

- Produce powerful data-driven insights into historical resource usage and plan for future space needs.
- Refresh data on a daily basis to get the most recent insights and leverage accompanying Power BI templates to further analyze data offline.

# work your world™

Eptura is a global worktech company that provides software solutions for people, workplaces and assets to enable everyone to reach their full potential. Our scale and expertise helps organizations to engineer a thriving work environment, by giving them the understanding they need to enhance their employee experience, workspaces, and asset value.
