Your Technology Partner

For over 28 years, ICAD has provided consulting services in the design, development and management of information technology systems related to computer applications of the built environment.

Our company specialises in providing professional and technical Integrated Workplace Management System (IWMS) consulting services. By expertly deploying innovative and effective solutions with state- of-the-art technology, we have helped our clients transform their organisation's effectiveness, productivity and profitability.

ICAD is the largest and most dedicated business partner for Archibus by Eptura in Australia and New Zealand. Our experience and expertise as a trusted technology partner has successfully delivered, customised, supported and implemented Archibus for some of the region's largest organisations.

Global Worktech Solutions

Eptura is a global worktech company that digitally connects people, workplaces, and assets in a unified platform to enable our customers to thrive. Eptura's scale and expertise helps organisations to engineer a thriving work environment, by giving them the understanding they need to enhance their employee experience, workspaces, and asset value.
